JOSIAH TURNER, Jr., EDITOR.

AGRICULTURAL.

IMPROVE YOUR SHEEP.

Most men who breed sheep are accustomed to isolate the rams about the first of August, and return them to the flock again about the first of November, or later, as the latitude may determine.

Through the middle tier of States, the first of April is probably the best time for spring lambs. The mothers need green food as soon as may be after their young are dropped, and that is generally ready from the 20th of the month to the first of May. Further north, the middle of the month is early enough, as the weather is colder and the starting of the grass much more backward.

To keep the flock constantly improving, the first necessity is to

CHANGE BUCKS FREQUENTLY.

We would suggest every year, if it is possible, to make a selection from a foreign flock that shall equal your own.

Another way is to hire a thoroughbred ram at any reasonable cost, and thereby introduce into your flock blood that will improve it, always keeping in mind, when the selection of a sire is made, what you propose to do with the progeny that shall come from this animal. One whose aim it is to get early and good lambs for market would not introduce merino blood; or, if he wanted fine wool, neither a Cotswold nor Southdown.

Not less in importance is

BREEDING FROM THE BEST EWES.

Any flock of sheep will deteriorate unless the best are saved for breeders. Seven seasons are enough for even the best of sheep to be used for mothers. After nine years old, they lose so much of their vitality and their milk producing qualities, that the lambs are generally below the average. As soon as the lambs are weaned—which should be by the middle of September, if they were born the middle of April—all the ewe sheep in the flock that are not of suitable age, of suitable form, and of suitable health for mothers, should be taken out, and in some way be disposed of. They can generally be fattened in the fall or early winter, and either sold to the butchers, or, if the number is not too large, can be consumed in the family, in lieu of more salable but not more nutritious meats.

The place of these thus discarded should be always filled from the best of the lambs, it it is desirable to keep the flock about the same size. Hundreds of farmers who sell early lambs are guilty of the folly of selling the best, and allowing those that will not sell to go through the winter, and eventually become mothers. This would seem to be a saving, but it is, instead, suicide. When the best are saved for breeders, the flock is constantly improving; when the poorest are permitted to become such, there is a gradual deterioration, and an ultimate (to use an expressive phrase) running out.

No farmer is worthy the name and age who is not always on the alert to make both his farm and the stock upon it better. It does not require capital to do this so much as it does care, and in the end the best farming and the best stock raising pay the best; and to the bottom line all eventually comes.—*Hearth and Home.*

ABOUT POTATOES.—Not a little discussion has been indulged in by writers in the various agricultural journals respecting the proper time to dig, and the proper way to care for potatoes after they are dug. Our opinion with regard to digging is, that, when the vines are dead, if this occurs before the frost kills them, the sooner the potatoes are dug, the better. They are then supposed to be ripe, and after a potato is ripe, it allowed to remain in wet earth its quality is harmed. If the vines are killed by frost before the tuber is ripe, we should let them remain in the ground as long as the frost will allow with entire safety. Potatoes ripen if they do not grow, after the vines are thus destroyed.

As to subsequent care, the mode adopted by the best growers is to put them immediately in a cool, dry cellar, in bins raised about six inches from the ground, and not over three or four feet wide, with slat-bottom and sides, so that the air can circulate freely through the mass.

In this way, unless they are poisoned before putting in the cellar, potatoes can be kept from August to April.

Speaking of the Early Rose, a correspondent has recently dug several hundred bushels which yielded enormously, which he proposes to keep till next May before marketing.

Later varieties on the same farm will not be worth digging.

The crop of late potatoes all over the Eastern State will be in most cases a complete failure, and in his opinion the crop will be unprecedentedly high all over the country when the coming spring opens.

DITCHING.—Rarely has there ever been a year so favorable for ditching as the present. Swamps and meadows which were never known to be dry before are now without water; and if the drought continues through the fall, we hope that much more work in this line will be accomplished.

Millions of acres of land now waste could be transformed to gardens by simply ditching and draining. The accumulations of ages in the way of fertilizing material are in these low lands. Why should not science and labor utilize what is of so much value?

CUTTING OFF THE SEEDS.—The maturing of seeds upon almost all kinds of plants is an exhaustive process. There are many of our annuals and biennials that will become perennials if they are not allowed to produce seeds, and this leads the florist to practice a system of removing all seed-vessels from plants where a strong growth is desired, and the seeds are of no value. Small herbaceous plants and shrubs will usually be greatly benefited by the removal of the flowerstems as soon as they are out of bloom and the increase in growth will readily be observed. It is not only a waste of vigor in the plant to allow seeds to mature that are not wanted, but it also exhausts the soil to no purpose. In many of the comparatively slow growing shrubs, like Rhododendrons and Azalias, this practice of removing the seed vessels is of more importance than in those of rapid growth, but it is beneficial to all.

A rough chap, knee high to a grasshopper, heard one complaining at the table of the quality of butter in market. Evening came, and he knelt, and in repeating the Lord's Prayer, paused after asking for his daily bread, and added in a whisper: "Mother, hadn't I better ask for a little good butter, too?"

Josh Billings charges the cat with being a kritter guilty of affektasun. I hev known a cat to clean the cream all oph from the buzzum of a pan of milk, and then limp into the sitting room on all four legs, and lay down in the corner of the fire place, as melancholy as though she hadn't a friend on the face of the earth.

There is only one thing worse than ignorance, and that is conceit. Of all intractable fools, and overwise man is the worst.

DESIRABLE PROPERTY.

I WILL SELL OR EXCHANGE FOR GOOD City property one of the best Cotton and grain Farms in Eastern North Carolina. The tract of land contains about twenty-two hundred acres, of which seven hundred acres are cleared, under fence and in good condition for cultivation. A large part of it is in cultivation this year. The soil is first rate, neighborhood good, labor cheap and plentiful. The dwelling house is large and commodious, with all necessary and convenient outhouses. The stables, Barn, Houses for laborers &c are good and numerous. This farm lies immediately on Navigable water, and has passing through it good water power, where there is now a Grist and Saw Mill and Cotton Gin. The place is desirable for conducting large Mercantile operations, and is a beautiful location for a town or colony. A steamer passes every day; and tomorrow, at my wharf two hundred yards in front of the dwelling. The surrounding county is rich and improving, and settled by intelligent, refined and prosperous people. Address

"WHO GARBLED THE LETTER."

This question is at last answered. The evidence points to Governor Holden, as Nathan did to David, and says "thou art the man." The *Standard* publishes the Governor's letter and asks: "Will the New York *Tribune* and other papers which have intimated, insinuated and charged that the garbling was by Governor Holden, perform an act of candor and justice by publishing the Governor's letter." Yes we will, and here is the Governor's letter:

TO THE PUBLIC.

MR. EDITOR:—Something has been said in the New York *Tribune* and other papers as to the alleged alteration or garbling of a letter by the Hon. A. W. Tourgee, Judge of the Superior Court, to Mr. Senator Abbott, and published in the *Tribune*. Justice to all concerned requires that I should make a statement in relation to this matter.

When in Washington City in July last this letter was shown to me. I read it, or it was read to me, and I asked Senator Abbott for a copy of it. Soon after my return to Raleigh I received the copy. I did not read it, for I knew its contents, but put it in my drawer for future reference. Soon after this Mr. Beecher, one of the correspondents of the *Tribune*, visited Raleigh to obtain information in relation to Ku Klux outrages in this State. In order to post Mr. Beecher on the subject of these outrages, I handed him the copy of Judge Tourgee's letter, with an injunction *not* to publish it, as it was a private letter. I was surprised soon after to see it in the *Tribune*. If it had been my purpose to publish this letter I would have sent it to the *Standard*.

I know nothing about the garbling, or the mistakes made in publishing the letter in the *Tribune*. All I know about it I have stated in this Card.

I deprecate and regret any reflections in relation to this letter which may have been made on Senator Abbott or Judge Tourgee. I have not imputed to them any improper conduct in relation to the mistakes made in publishing the letter, nor do I expect to do so. The garbling or these mistakes may have occurred in the proof reading. But, however this may be, I know nothing about these mistakes or this garbling.

Very respectfully,
W. W. HOLDEN.

Raleigh, Sept. 12, 1870.

The Governor was charged with garbling Judge Tourgee's letter. It was a grave charge, making infamous the man upon whom it could be proven. Abbott, Tourgee or Holden were to be marked as infamous. Abbott and Tourgee were quick to exculpate themselves. An effort was made to put it on Greeley or his type. That would not do; the Philosopher had the original, just as Governor Holden handed it in. It is more than a month since the "slow moving finger of scorn" was pointed at the Governor as the guilty man. Through the *Standard* he attempted to assail Greeley as the "apologist" and bail of Jeff Davis, and his paper as a "Ku Klux organ."

If the Governor did not "*garble*" the letter why did he assail Greeley? Reminding Greeley that he was bail for Mr. Davis was no answer to the charge of garbling the letter. Why has he delayed so long in his answer? If he were not guilty, he would have written the letter long ago. Now he says something has been written in the New York *Tribune* and other papers, &c. Yes indeed "*something has been written.*" "Justice to all concerned requires that I should make a statement *in this matter.*" No such thing; justice to himself demanded that he should have made the statement long ago, and at the time he was attempting to make Greeley odious for going bail for Mr. Davis. "In July last I read the letter or it was read to me." He knows which it was.—The probability is he read the letter after it was read to him by Abbott. He put the letter in his drawer and took it out to post Mr. Beecher on Ku Klux outrages. "I know nothing of the garbling or mistakes made in publishing the letter in the *Tribune*."

There are no mistakes. If Holden did not garble the letter why does he now insist that there are mistakes, when in truth there are none. He deprecates and regrets any reflection on Abbott, or Tourgee. He does not impute to them any improper conduct in relation to the mistakes made in publishing the letter. Who but the guilty man could pen this sentence. He will not impute improper conduct to Abbott and Tourgee because of mistakes made in setting type in the *Tribune* office! Nor is this all; he promises Tourgee and Abbott he will not do so in the future. Again he says, these *mistakes* may have "occurred in the proof reading."

Now it is well known that it did not occur in "*proof reading*," as that there is such a man in New York as Horace Greeley.

We believe the Governor "garbled" the letter. We think his card convicts him.—He, above all other men, from the game he was playing, was interested in garbling and adding tenfold to Tourgee's infamously false letter. None but the guilty man could have written the Governor's vague, doubting and unmeaning letter. The *Tribune's* question, "who garbled the letter," is now answered. W. W. Holden is the man.

J. A. Eldridge, the carpet-bag Sheriff elect of Bladen county, being unable to give the required bond, Capt. D. J. Clarke, has been installed in his stead.

KIRK'S MEN FIRED INTO.

The *Standard* tries to charge a Conservative engineer with firing upon Kirk's men as they left Salisbury, takes special pains to let it be known that the engineer was a Conservative. It then asks why the men were put on a construction train and sent out on the Road late at night? How did the Ku Klux know the train was to pass the place of attack at the time it did? Dr. Mott the Radical President of the Road should be able to answer all the questions of the *Standard*. The engineer has nothing to do in arranging the arrival or departure of trains.

The *Standard* will not be able to fasten the guilt of firing upon Kirk's men upon Railroad officials, if it does it will be upon Radicals, and not Conservatives; for it is a Radical who regulates all trains on that Railroad and not a Conservative engineer.

As to firing on Kirk's men (if it was not done by themselves) we regret that it was done, because the Governor brought them here to be fired upon and we wished to see him disappointed. They could not have gone into any Northern State for the same object and under the same circumstances, without being fired into.

One of the officers sent by Grant to aid Holden and the League was heard to say, "if Kirk and his men had invaded any Northern State as they did North Carolina, he and his men would have been hung in forty-eight hours." That Tennessee murderers and robbers could be called into North Carolina and arrest and imprison one hundred men without warrant, law or the shadow of law and not be shot at is passing strange. When we add to that, that some were ironed and hung, the wonder is only increased.

That Kirk and his men were not attacked, can be accounted for in only one way. Holden desired it, and the people of North Carolina are set against his desires. We are for handling Holden, Kirk and their followers only by and with the law.

"Colgrove was murdered on the highway, Outlaw was hung by an order sworn to secrecy and murder, Stephens was assassinated, houses of peaceable and unoffending citizens have been broken into and the inhabitants scourged and killed,—and the SENTINEL has never remonstrated against, denounced or condemned their infamous crimes."—*Standard*.

Colgrove was a scoundrel, swindler and thief, who served four years in the penitentiary of New York. Outlaw, a member himself of a secret society was hung for shooting at the members of another secret society passing the streets of Graham. At least, we were so informed by one of Gov. Holden's Squires, as well as by the Rev. Alex. Paisley, a colored Republican.

As to chicken Stephens whose murder is yet a mystery, he was convicted in Rockingham of chicken stealing. He was not convicted as the Governor said in the *Standard*, by a rebel jury, but he submitted, pled guilty and paid the cost. He made speeches in the League meetings urging the negroes to burn barns and houses. The burnings began and Stephens was murdered.

We have deprecated every act of violence committed in the State except two. When the one legged man, Pike, swore he knew enough on the Governor to put him in the penitentiary, and drew a pistol on Joseph, we thought it proper because Joseph had two. When Mr. Shakespear choked Joseph's false speaking tongue out of his mouth, we did not deprecate the act. Yes, there was violence committed on the person of Joseph in Tucker's back yard, which we did not deprecate. But all other lawless acts we have not only deprecated them, but we have denounced them repeatedly. The SENTINEL has uniformly opposed all secret organizations of whatever kind and their wicked acts, and have denounced those gotten up by the Radicals as well as Conservatives. They are all wrong and lead to evil, if not designed for evil in their formation.

THE ADAPTATION OF THE SOUTH TO GENERAL PRODUCTION.

We have long believed that the climate and soil of North Carolina are adopted to the production of almost every article of consumption. Scarcely any article of produce can be named which cannot in some portions of the State be produced profitably.

Mr. W. B. Gendell of Washington City, D. C., in a note to us, in which he says, he had sent us an article on this subject, but which has not come to hand, also says:

"There is no substantial reason why our country should not be able to cultivate successfully any, if not all, important products of the soil, so that in the words of Jefferson: 'We ought to be able to *supply our wants from our own soil.*'"

This is the only true secret of independence and happiness. Until a community learns to supply its wants by its own industry and skill, it can never be independent; and it is palpable that human happiness so far as it depends upon our material condition, can only be secured by virtue, self-reliance, industry and independence.

SPEAKER OF THE HOUSE.

MR. EDITOR:—I would not pre-judge the claims of others, nor would I needlessly interfere with the business of the General Assembly, but in order that real merit may not be overlooked, I beg leave respectfully to suggest the name of the talented and judicious member of the House of Representatives from Tyrrell, Capt. THOMAS J. JARVIS, as a most fit and proper one for Speaker of the House. Mr. J. was an old line Democrat, and is eminently Conservative.

Mr. J. was one of the most valuable and judicious Conservative members of the late General Assembly. He was always consulted on all important movements and his wise counsel most generally prevailed.—His acquirements and his talents fit him for the position, and his experience in legislation and position in the party, point him out as the man for the next Speaker of the House of Representatives.

RAILROAD SWINDLES.

MR. EDITOR: May I be allowed space in your valuable paper for the purpose of ventilating more fully than has heretofore been done by other writers, some of the various frauds connected with the "Western Division of the Western North Carolina Railroad."

I have been at some trouble to collect information touching this matter, and I believe the public should have the benefit of it. I am clearly of opinion *the half has never been told.*

The pretended settlement made by the commissioners with Messrs. Swepson and Littlefield is by no means among the least of the frauds connected with this huge Railroad swindle.

When the whole matter is sifted to the bottom, it will be found that some rather distinguished men who have been for some time connected with this swindle, will be justly implicated; still an exposure should be made, and whoever is unable to show "clean hands," will deservedly meet the condemnation of an outraged public.

If entirely agreeable with you to allow me space in your paper for the purpose indicated, I will at an early day,—perhaps before the meeting of the Legislature commence a series of articles.

It does seem to me highly necessary that this task should be performed by some one, and I only regret that a more competent writer has not undertaken the work.

Respectfully, &c.,
CITIZEN OF YANCEY.

We welcome the exposition; but let it be done properly and fully and truly.

MISCEGENATION.—SOME OF HOLDEN'S TROOPS.

We noticed passing here on Wednesday, *en route* towards Virginia, one of Holden's discharged "mallish," who furnished to our citizens what he knew to be a fair sample of those who lately were employed to insult and abuse peaceable citizens. This *genus homo*, claiming to be white, still dressed in his blue, but presenting a dirty appearance and having a don't care expression that reminded us of a hog enjoying his wallow, was seated upon the steps of the coach engaged in thumping most lustily upon a fifty cent banjo, while a few wondering darkies were grinning at him in a most admiring manner.—Upon the brow of this late "gallant" soldier we thought we saw inscribed the words "*veni vidi, vici;*" and learning that he was carrying with him home a fair bride, captured during his sojourn with Col. Clarke, we went into the car to see what fortune had given him in the marriage lottery, and beheld a woman of comely proportions seated near her liege lord, keeping time with her feet to the music he was drawing forth, and looking upon him in such a loving manner that we were convinced that the sojer boy had captured her heart as well as her hand—we would like to describe the woman for the benefit of the curious, but will only say that she was—as *black* as Lucifer.

P. S.—We learn that this individual is from Mecklenburg county Va., and that he has a wife there. So mote it be.—*Weldon News.*

FRENCH REVOLUTIONS.

Within the last seventy five years, France has been three times a republic, three times an Imperial monarchy under the Bonapartes, three times a Bourbon kingdom, once a Constitutional monarchy under Louis Phillippe, and once a military Dictatorship under Cavaignac. But even that statement does not show all the changes in the form of government within the period named. The first Napoleon was Consul for a term of years, then Consul for life, then Emperor. Louis Napoleon was first President, then President for ten years, then President for life, then Emperor. Of all these various forms of government the republics have been the shortest lived, with the single exception of the "hundred days" of the first Napoleon, from March to June, 1815. The duration of the rule of Louis Napoleon from 1848 to 1870, as President and Emperor, was the longest of all; and next to that was the reign of the constitutional king, Louis Phillippe, from 1830 to 1848. Of those who were sovereigns for life, or who have held executive power for a specified term of years in France, from the days of Louis XV down to the present time, only one man, Louis XVIII, reached the end of his term; Louis XVI died on the scaffold; his republican successors were either guillotined or assassinated; the First Consul declared himself Emperor and then died in exile; Charles X was driven from the throne by the Revolution of 1830 and died in exile; Louis Phillippe was dethroned by the Revolution of 1848, and ended his career as an exile; the Provisional Republic of Lamartine, which succeeded him, was a short-lived failure, succeeded by the Military Dictatorship of Cavaignac; then came the Presidency of Louis Napoleon which was ended by his coup d'etat of December, 1851, to be followed by the "Empire" in December, 1852, and this, after a lapse of eighteen years, is followed by captivity, dethronement, and exile in 1870.

The Democrats of Vermont have nobly answered to the hopes of their brethren throughout New England and the country. On a larger aggregate vote than last year, they have made decided gains, increased the number of their representatives in the Legislature, greatly reduced the majorities of their opponents, and manifested a determined purpose to co operate with the popular sentiment that is rising all over the country to displace Radicalism from power. The Democrats of the other States salute their resolute brethren of Vermont with a fresh satisfaction. Though victory was not expected at their hands, what was expected has been nobly accomplished. Towns that have not thrown a Democratic vote in ten years have placed themselves in this canvass on the side of progress and reform; and strongholds of Radicalism have been assailed with a pertinacity that has compelled them to relinquish a large share of their claims. Montpelier, Rutland and other towns have shown symptoms of discontent under a rule hitherto accepted as perfection. Federal patronage was concentrated on Burlington to hold it fast, but thoughout the State the Democrats have shown the spirit that every where merits enthusiastic emulation.—*Boston Post.*

Peace prevails in NORTH CAROLINA. The Governor has officially proclaimed a Conservative victory, is about to disband his ragamuffin troops, and subsides generally from an armed ruffian into a mere partisan pamphleteer. These are happy changes, and pleasantly prefigure the good time coming, and now not far off, when Radical rulers shall cease to bear rule in the South any more. Six weeks ago, when Republican ascendancy was as yet unbroken, NORTH CAROLINA was one scene of brutal violence, a reproach to the civilization of the age, and a disgrace to the country. To-day that ascendancy is over; and NORTH CAROLINA is as quiet as NEW YORK. The difference is the same as that between TENNESSEE under BROWNLOW and under SENTER.—*N. Y. World.*

There are 17,689 places of dissenting worship in England and Wales. The Methodists have the greatest number—viz: 10 898; the Congregationalists stand next, 2,352: the Catholics have 639, and the Mormons, 86.

CURIOUS CONFIRMATION OF A PROPHECY.

NAPOLEON'S FALL PREDICTED.

The war, writes the *Evening Post* Frankfort correspondent, has it humorous as well as its sad side, and before the times become too earnest I will give you a number of curious gleanings and anecdotes which have appeared in recent German papers. I bought for a kreutzer a few days ago a small printed sheet headed "A Remarkable Prophecy," in which the end of Napoleon is apparently foretold for the present year. I had seen similar things before in relation to Napoleon, but will communicate it here:

The following calculation (says the printed sheet) is of great interest now on account of the surprising results gained therefrom:

Louis Phillippe was born	1773
His queen	1782
They were married	1809
Ascended the French throne	1830

By the addition of these historical numbers, as follows—

1830	1830	1830
1	1	1
7	7	8
7	8	0
3	2	9
1848	1848	1848

we get the ominous year of 1848, in which Louis Phillippe actually abdicated the French throne. This method of calculation has been applied to the present Emperor, and equally surprising results have been achieved.

Napoleon III. was born	1808
The Empress Eugenie was born	1826
They were married	1853
Ascended the throne	1853

Taking these figures and working them out as before, we have:

1853	1853	1853
1	1	1
8	8	8
0	2	5
8	6	3
1870	1870	1870

The deduction of these figures is apparent to every one: Louis Napoleon will lose his throne during the present year.

Another prophecy is communicated by a scholar to the *Hamburger Nachrichten*, and is found in the "Prophetics de Nostradamus," in the edition which appeared in London in 1672. Nostradamus was a celebrated astrologer of the sixteenth century; born on the 14th of December, 1503, at St. Rene, in Provence, of Jewish descent, his proper name being Michel Notre Dame.—He first studied medicine, and after gaining great fame, first began to make prophecies in the year 1547, issuing his famous predictions (*Prophatics*) first in 1555.—These predictions were in rhymed quarrians, divided into centuries, of which there were seven; the second edition, published in 1558, contained ten, and had a great success. Though many regarded Nostradamus as a quack, he was much sought after by high and low, and Catharine de Medicis invited him to visit her at Blois, to draw the horoscope of her sons. His predictions have been since the subject of a vast controversial literature. In the thirtieth prophecy of the tenth century of his "Prophetics," this writer to the *Hamburger Nachrichten* finds one passage which is applicable to the present time. It reads thus:

Espven et sang du St nouveau venu
Par le surnom coustrent aros et couvert
Le roust chassez vis a vis chassez pa
En rouge et noir convertiront leur vert.

The translation reads: "The nephew and the blood of the newly-arrived saint (Napoleon I) supports by the name arch and roof (the edifice); they will be hunted down, killed; hunted naked. Their green will be changed into red and black." Though this last line appears obscure enough for anybody except a prophet, a German announces the key to it by translating *sert* as hope, *rouge* as blood, and *noir* as mourning—"Their hope will be turned into blood and mourning."

INCREASE OF THE NATIONAL DEBT.—The Cincinnati *Enquirer* says: "Since the close of Johnson's Administration United States securities have increased 11 per cent. in value." We find this statement occupying a prominent position in the columns of Radical newspapers, and made the basis of a claim to popular endorsement for their party. Accepting it as true—and we believe it is nearly so—how does this enhancement of the price of Government bonds affect the people who are thus called upon to rejoice at it? If the debt were to be paid, as it should be, in currency of equal value with that in which it was contracted, the taxpaying laborers of the country would be called upon to pay only fifty per cent., and in some cases even less than that proportion, of the face of the bonds in gold. The Radical majority in Congress, however, have expressly repudiated this equitable and honest principle of payment, and resolved that the bondholders shall receive a dollar in coin in exchange for their paper which only calls for forty or fifty cents. But meanwhile the enormous taxes levied upon the industry and commerce of the country produce a heavy surplus revenue; and the policy adopted by Mr. Boutwell and approved by his party, is to invest this surplus for Government account in bonds at the market price.

"According to the statement above quoted, then, the treasury is compelled now to pay eleven per cent more for bonds than they could be bought for at the date of Grant's inauguration. This is the fact of which our Radical friends are now claiming credit; and if the entire amount of outstanding bonds—say $2,000,000,000 worth—could be purchased at the same rate, we should pay for them exactly $220,000,000 more than they were worth under Johnson's Administration. In other words, we have already added that amount to the volume of the debt, and as the Radical policy produces its effect in the further advance of the price of bonds, of course the burden upon the people will be proportionately increased. Let it be remembered that this is one of the results of their policy upon which the party itself asks the judgment of the people.

TO CALCULATE THE AMOUNT OF WATER IN A CISTERN OR WELL.

RULE.—Square the diameter, and multiply the product by the decimal fraction 1.865, which will give you the contents, in barrels, one foot deep; multiply this by the number of feet the cistern is deep, and we have the contents of the cistern in barrels and fractions of barrels.

Example.—What is the capacity of a cistern in barrels 6 feet in diameter and 6 feet deep?

	6

Square of diameter of cistern,	36
Fraction,	1.865

	216

	36
Contents in barrels, 1 foot deep,	6.7140

The NATIONAL, under the management of his father, P. F. Pescud, Sr., secured very many warm friends who obtained policies for large amounts, and the fact that it has issued upwar[illegible]

10.000 POLICIES,
and nearly doubled its immense Capital of $1,000 000
in about two years, speaks more for its wonderful popularity than any language at my command. The rates being based on the Stock Plan, and when contrasted with Mutual Cash rates, are so much lower, that a certain and handsome dividend is secured from the date of the Policy.

SEND YOUR ORDERS IN TIME.
FOR THE IMPROVED
"UTLEY COTTON PRESS."

THE "UTLEY PRESS" So well known, and which gave entire satisfaction last season, can be obtained of me at Raleigh, or my Agents, Messrs. Mitchell, Allen & Co., Newbern, with its improvements.

Price $175.00.

This invention of power, whereby all friction is overcome, its simplicity, economy and durability, astonishes all who see it; and the more so, that a power so simple should have remained so long unappropriated. The strain is wholly borne by the Bed Plate, Follower Block, and two 1½ inch square iron bars, which is capable of sustaining a strain of 100,000 lbs. Thus giving much more strength than is required. WITH THIS PRESS TWO MEN CAN PACK A BALE OF COTTON WITH EASE IN EIGHT MINUTES WEIGHING FROM 400 to 550 lbs.

One man can do the work, only requiring longer time.

It occupies a very small space, and can be so placed as to receive the lint direct from the Gin or Lint Room, as may be desired. Thus doing away with baskets, and frequent handling of the lint.

It is light in weight, can be taken down or put up in 30 minutes and transported on a two Horse Wagon.

I believe it unequalled by any Press for power, convenience and durability.

Press complete—Depth Cotton Box 8 feet; Size Bale 4½ feet x26x28.50m; wt. Bale 400 to 550 lbs.

THOS. B. BRIGGS.

FRANKLINTON, N. C., April 16th, 1870.

MR. THOMAS H. BRIGGS: Dear Sir:—Yours of 13th instant inquiring as to the merits of the "Utley Cotton Press" is to hand, and in reply I would say that I have tried other Presses and consider the *gem* upon which *the Utley Press* works cheaper, simpler and more durable than any I have met with. Yours very respectfully, JAS. B. WILDER.

THOS. H. BRIGGS, Esq: Dear Sir:—In reply to yours of the 13th asking how I was pleased with the Utley Press I used last season, I would say *that it gave entire satisfaction.* Respectfully yours, CHAS. H. BLOCKER.

The first opening of Parisian Millinery takes place to-day at HESTER'S, at 10 o'clock, A. M.

Among the innumerable good things to be found at Bradley and Christophers, are some delicious scuppernong grapes. Don't take our word for their being good but go and judge for yourself.

WM. G. HILL LODGE.—There will be a called meeting of Wm. G. Hill Lodge this evening for work in third degree. Transient bretheren invited.

HOOK AND LADDER.—Members of Hook and Ladder Company, No. 1, are requested to meet promptly, at 3 o'clock, P. M., today, at their room, to join in the parade, and assist in the dedidation of the Rescue's new Engine House.

TEMPERANCE FAIR.—Last evening, the Hall of Oak City Council, No. 16, Friends of Temperance was the scene of a brilliant festival. A large crowd was present. The tables were loaded with everything attractive to the eye and tempting to the palate. We advise those who have not attended heretofore to avail themselves of the opportunity offered this evening, as some elegant chromos and beautifully ornamented cakes will be disposed of by raffle or at auction

POLICE MATTERS.—Josephine Mahler and Cornelia Hughes, two noted characters, were arrested by policeman Blount, for being disorderly on the streets at a late hour Tuesday night. Both were ordered to leave the city.

NEW LIVERY STABLE.—The handsome building, designed for a Livery Stable, erected by Capt. B. P. Williamson, is completed. We have not inspected the premises, but we are informed that it is in every way suited to the purposes for which it was erected.

Rescue Steam Fire Engine Company will parade this evening at 3 o'clock, P. M. Members are requested to meet at Engine House.

IMPROVEMENTS.—Work upon the new three story buildings now being erected on Wilmington street, by Judges Fowle and Banting, is progressing finely.

Workmen are also busily engaged in the construction of W. C. Stronach's new building on Fayetteville street, near the Yarboro' House.

These buildings will be ornaments to the streets upon which they are located and creditable to the enterprising gentlemen who erect them.

ERROR.—We stated a day or so ago that we had heard the rumor that the Governor had dismissed his "familar" Farris. Yesterday morning we were informed, that report was untrue; that the Governor still clings to Farris. When we heard of the separation, we indulged the fond hope that the morals of Farris stood some little chance of reform, but this news of the continuance of the intimacy between himself and the Governor has demolished all such hopes. As to the old colored man, Solomon Bragg, we can't give him up, yet.

A LARGE PEAR.—We were shown on yesterday by Mr. West, a pear which weighed 1 pound 13 ounces. It was raised by Wm. Holland, of Wake, on the Chatham Railroad. It is the largest pear we ever saw.

CORRECTION.—There was a material error in the article of a "Citizen of Yancey" on yesterday. Instead of "but why do I say 'old man' Clingman and such, who have been made the special favorites of carpet baggers and native scalawags and the very least whose claims to senatorial honors should be consider?" the reader will please read: "special favorites of carpet baggers and native scalawags *are the very last* whose claims," &c.

INQUIRE WITHIN.—The mouth is like a house to let. However pretty it may be externally, it is impossible to judge of its merits until you have seen the inside. If behind the ruby doors there are plenty of pearly white fixtures, you will exclaim at once, "How beautiful!" To impart the utmost possible brilliancy, there is nothing like fragrant SOZODONT.

ATTENTION MECHANICS FIRE CO. No. 2.—You are hereby ordered to meet at Fireman's Hall this (Thursday) afternoon at 2½ o'clock. All are expected to be present.

By order of the Foreman,
H. C. HARRIS, Sec'y.

A RESPECTABLE COLORED BOY.—The Mt. Airy *News* states that John L. Worth of that place recently lost a roll of money amounting to $350. A negro boy 16 years of age, named Abe Stuart found it two weeks after and immediately returned it to its owner. The owner gave him $25, which with a good name and a good conscience is worth thousands to him.

ROCKINGHAM.—We learn that Judge Settle is still at work on his new bridge over Dan River. This bridge will cost the County about $15,000, and it was authorized by the Radical Legislature, in opposition to the wishes of the tax payers of the County.

THE STATE FAIR.

We are gratified to learn, that in order to encourage the enterprise of our people, several of our merchants have determined to offer special premiums in addition to those offered by the Society at the approaching State Fair. The following have been already named:

Messrs. Upchurch & Dodd offer $20 for the best bale of Cotton of not less than 400 pounds, and Messrs. W. C. Stronach & Co., offer $15 for the best bale—making $65 premium.

Messrs. Leach & Co., offer $5 for the best barrel of flour of North Carolina manufacture, making a total premium of $15.

Messrs. B. F. Cheatham & Co. offer $5 for best Leathers—sole, kip and calf, North Carolina manufacture,—making $15 premium.

Geo. T. Stronach offers $10 best box manufactured tobacco.

Jas. H. Ennis, Bookseller, offers Stephens "Book of the Farm," $8 for bushel of wheat.

K. P. Battle, Esq. offers $20 for best bull, native or imported.

We hope the list will be considerably enlarged. Money cannot be spent better, than in encouraging the industry and enterprise of our people.

THE GEORGIA STATE FAIR.

At a late meeting of the Georgia State Agricultural Society, the following resolutions were unanimously adopted:

WHEREAS, The Fair to be held in Atlanta during the month of October, 1870, is intended to be a grand exhibition of American industry; and

WHEREAS, Said exhibition will be held under the immediate control and supervision of the Georgia State Agricultural Society; therefore be it

Resolved, That we, the delegates and representatives to the Georgia State Agricultural Society assembled, do hereby extend to our fellow citizens of the North, East and West a cordial invitation to meet their brethren of the South at said Fair, to exchange friendly greetings, to exhibit stock, agricultural implements and other articles of home industry, and thus promote the material interests of all sections.

The Fair is held in Oglethorpe Park, two miles from the city on the Rail Road, and the most extensive provision is made for the accommodation of the visitors and exhibitors.

Bonds issued by the city of Charlotte for the benefit of the Mecklenburg County Agricultural Society sold on last Thursday at 79, 79½ and 80. Good.

The Mecklenburg Agricultural Society held an interesting meeting at the Court House, in Charlotte, on last Thursday.—Gov. Vance and others made addresses, and there were many accessions to the Society in the way of members.

MISS —— Rogers, about 15 years of age, daughter of Ben Rogers, Esq., of Cherokee county, while handling an old pistol, accidentally discharged it, while the muzzle was in the direction of her head. The ball entered her face near the left eye and passed out at the back of her head, causing instant death.

Remember the grand Conservative celebration at Rocky Mount on the 29th inst. Everybody is invited and a good time is expected.

The new steam fire engine, "A Adrian," of the Wilmington Fire Department, was tested on Monday and was found to work splendidly.

New cider and chinquipins are coming in vogue.

The post office at Point Caswell, New Hanover county, and at Crowell's Mills, Bladen county, have been discontinued.

Anthony Howe, col., is announced as a candidate in the New Hanover senatorial district, for the vacancy occasioned by the death of A. H. Galloway, col., the Senator elect.

Neil Boyle, a resident of Wilmington, accidently fell from a flat on Sunday night, within a short distance of the wharf, and was drowned in spite of all the efforts made to rescue him. The body was not recovered until the next day.

David W. Bell, an old and highly respectable citizen of Newbern, died on Sunday afternoon.

FIRST BALE OF COTTON.—The first bale of cotton of the new crop from North Carolina was received by Messrs. W. D. Reynolds & Bro. of Norfolk, Va. and sold on the 9th inst. for shipment to Liverpool as a sample of new crop. This cotton was raised in Perquimans County on the farm of Messrs. E. P. Jones and R. Y. McAden.

Congestive fever is prevailing fatally among children in Charlotte; five deaths occurred on Sunday.

METHODIST MEETINGS.—Rev. Mr. Renn has been holding several interesting meetings in Wake recently. We learn that a number have made a profession of religion at Rolesville and at other points.

GOING TOGETHER.—The Newbern *Journal of Commerce* speaks as follows of a trio not easily separated.—"Scuppernong grapes, cool weather and chills are prevailing."—In the low lands, eat a quart of grapes, and while doing so, sit in the sun, and then, as a matter of course, go to bed with a chill, is the custom.

U. S. SENATOR.—The position of U. S. Senator seems to have many attractions.—To the long list of names already mentioned for that office, the following have been added: Judge Warren, Judge Manly, Judge Howard, Maj. John W. Hughes, Wm. Eaton, Esq., Wm. S. Ashe, &c., &c.

OUTRAGE.—A fellow named Johnson, it is said, who was formerly a Revenue officer in Guilford and other counties, is engaged in selling counterfeit Revenue tobacco stamps. A respectable young man of Rockingham county took a load of manufactured tobacco, recently, stamped with the stamps sold by Johnson, supposing that they were genuine, started to sell, and while over in Wythe county, Va., was arrested and imprisoned for want of bail.—Honest men should have their eyes open in reference to Revenue matters.

MR. L. G. ESTES has U. S. Internal Revenue Collector 2nd Dist. N. C. purchased of us in the Spring of 1869 a fine Gold Watch, and under date of June 1869 writes thus: "*It was a present to the Speaker of the House of Representatives of which I am a member.*" This Watch is still unpaid for; and though we wrote Estes repeatedly—he paid no attention whatever to our letters, leaving us but one inference, that he did not intend to pay for it.

Estes in a published "Card" says he bought of us goods amounting in value to over $2 000 but even were this so (and we feel assured it is not)—it has nothing to do with the case. Estes claims further to have paid in part; but his remittance was cancelled by a PREVIOUS INDEBTEDNESS for a breast pin,—*leaving the watch still unpaid for.*

With the personally abusive part of Mr. Estes "Card" we have only to say that it is wholly false as to the assumed fact. No other notice is necessary from gentlemen, of abuse of which no gentleman could be guilty.

☞ Will Estes pay us our money which he is keeping from us and which he cannot do without being impudently a dishonest man?

The Daily Sentinel.

FOOTSTEPS OF THE ANGEL.

BY H. W. LONGFELLOW.

When the hours of day are numbered,
And the voices of the night
Wake the better soul that slumbered,
To a holy, calm delight.

Ere the evening lamps are lighted,
And, like phantoms grim and tall,
Shadows from the fitful firelight
Dance upon the parlor wall.

Then the forms of the departed
Enter at the open door,
The beloved, the true hearted,
Come to visit me once more.

He, the young, the strong, the cherished,
Noble longings for the strife,
By the roadside fell and perished,
Weary with the march of life.

They, the holy ones and weakly,
Who the cross of suffering bore,
Folded their pale hands so meekly,
Spoke with us on earth no more.

And with them the being beauteous,
Who unto my youth was given,
More than all things else to love,
And is now a saint in Heaven.

With a slow and noiseless footstep
Comes that messenger divine
Takes the vacant chair beside me,
Lays her gentle hand in mine.

And she sits and gazes at me
With those deep and tender eyes,
Like the stars so still and saint like,
Looking downward from the skies.

Uttered not, yet comprehended,
Is the spirit's voiceless prayer,
Soft responses in blessings ended,
Breathing from her lips of air.

Oh! then oft depressed and lonely,
All my fears are laid aside,
If I remember only
Such as these have lived and died.

A high officer of the Sons of Temperance presenting himself with the smell of grog he had been drinking, at the door of a "Division" for admission, was waited upon by an Irish sentinel, to whom he gave the pass-word, when the following passed:

"Sir," said he, "as ye are Mister O'Wright the Grand Worthy Patriarch of the State of Khaintucky, I do be afther believin."

"Yes," said Jim, "you are perfectly right my friend, but why do you ask the question?"

"An tell ye the thruth, then, sir an shame the devil," said Pat, "ye do be havin the right pass word for a Son of Temperance, entirely; but by the Holy Virgin and the blessed Saint Patherick ye got the wrong shmell!"

At a recent wedding in Connecticut, the bridal party had swept up the aisle in glorious style, taken their places, and were waiting the words of the clergyman, when an apparently insane gentleman stepped forward, rapped the bridegroom on the shoulder, and said, in a whisper audible to those near by: "Before this affair goes any further, I wish to know one thing—who will build the fires?" The groom, as soon as he could recover from his astonishment, and seeing that the question would be repeated, indignantly replied, "I will—only be still."

A NEW DISCOVERY!!

PHALON'S

"VITALIA;"

OR,

Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and colorless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

Phalon's Vitalia

is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists.

NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!,

IT costs less!—It lasts longer!—Gives a more Brilliant light!—May be turned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

THE EQUITABLE

HAS BECOME THE LEADING COMPANY OF THE WORLD.

Its New Business (sum assured), for the year 1869, exceeded that of the second company in rank by more than THIRTEEN MILLION DOLLARS.

In 1860 it was the 9th Company in new business for the year; in 1861 it was the 8th; in 1862 and 1863, the 7th; in 1864 and 1865 the 6th; in 1866, the 4th; in 1867, the 3d; in 1868, the 2nd;

In 1869 it was the FIRST.

The insuring public should not allow itself to be deceived with regard to the term "Annual Dividends." Many companies using this expression mean that their dividends are "annual" AFTER THEY ONCE BEGIN TO PAY THEM AT ALL; but they DO NOT BEGIN TO PAY until the settlement of the third, fourth, or fifth premium.

One hundred Dollars paid in dividends, at the end of *one year*, and each year thereafter, equals FOUR HUNDRED AND THIRTY-SIX DOLLARS paid at the end of FOUR YEARS, interest at six per cent.

Applications for Assurance may be made to any of the Society Agents throughout the country, or in person or by letter to the General Agents.

Gentlemen of character desirous of forming a connection with the Society as Agents are invited to communicate with its General Agents.

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!

THE BROOKLYN LIFE IS THE ONLY COMPANY IN AMERICA WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks*,—upon which elements of administration the security of a Life Insurance Corporation *depends*.

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and every year, *and a certain legal standard of reserve and accumulation must be held by the Companies to meet all their liabilities.*

Insurers in looking around for Companies in which to insure, should carefully seek for this important safeguard. It will be found in the BROOKLYN LIFE.

CASH ASSETS - - - - - - - - $500,000.

YOUNG, HEALTHY, VIGOROUS AND CONDUCTED BY A WISE, PRUDENT, AND ECONOMICAL BOARD OF DIRECTORS UPON A

NEW SYSTEM,

devised by its talented and distinguished Actuary CHAS. N. MORGAN, which must make it the leading Company in America, for persons in

MODERATE CIRCUMSTANCES,

and all who appreciate and demand the most UNQUESTIONABLE SECURITY, at rates in most cases, *considerably lower than* those of the leading Mutual Cash Companies.

The Excelsior issues Policies on *all* the plans of *Mutual* or *Stock* Companies, extending to policy holders, all the really desirable advantages. Its policies being *non-forfeiting*, the insured are privileged to *live and travel where they please* in any healthy part of the *world*, they participate in its profits, are allowed 30 days grace for payment of renewal of premium, a cash surrender value of policy, *and a privilege* which has never been offered by any other Company, that of converting Policies into

ANNUITY BONDS,

after the payment of 5 or more annual premiums.

As hitherto, I have been restricted in the very popular Company which I had the honor to represent to *Stock rates* alone, which most of the *Mutual*, and mixed Companies have adopted. This disadvantage, together with the multiplication of many new Companies in this State who claimed to possess unusual charms, together with the extraordinary attractions presented by the Excelsior induced me to accept the management of that Company, whose plan combines all the popular features of other Companies, represented in this State, without an exception, and the additional privilege of converting policies, which the holder can not afford to keep up, or wishes to discontinue, because of the death of those for whose benefit the policy was secured, into an *Annuity Bond* which provides an income *in cash through life, or for a series of years as preferred.*

Circulars giving full explanations and any other information, will be cheerfully furnished.

The most liberal arrangements, will be made with first class solicitors, to push the Excelsior forward in the Old North State, to that position which her low rates and most ample security entitle her to occupy.

P. F. PESCUD,
